security was excessive, even for

became too much. I hid inside a  
car ... went inside to where  
the elite live ... Luxury,  
richness, wealth. /I didn't see  
much but enough to know that a /  
giant deception had been played  
against all of our people apart

(EXAMINES CONTROL PANEL) Yes ...  
yes ... splendid ... new  
elements and linings on the  
orbital transmission,  
thanks to the Governor's  
generous supply of Zeiton 7.  
Still, now that all Varos knows  
it is more precious than gold you  
can understand their gratitude,  
I suppose ... (TO PERI) Do you  
feel all right?

PERI: Apart from the residual  
side affects of foul pest, I  
feel fine.

THE DOCTOR: As long as you stay  
away from millit and cuttle fish.

PERI: You're sure the Tardis  
will function properly ...?

THE DOCTOR: Oh, yes. Disappointed?

PERI: You think I'm crazy?
